

Cable Television Advisory Council For Hamden, New Haven and West Haven

Mission Statement: The Cable Television Advisory Council recommends to the Connecticut Department of Public Utility Control (DPUC) the most qualified organization to operate community access programming and annually reviews the organization's rules, regulations, policies and procedures governing the provision of community access programming. The Advisory Council reviews all community access programming which has been subject of a complaint.

The DPUC designates the Advisory Council as an intervener in any contested case before the DPUC involving the franchise holder.

Goals for the Future: The Advisory Council shall assist the franchise holder with the establishment of specific goals for community access and with a periodic assessment of the achievement of those goals. The franchise holder will incorporate into its annual report to the DPUC, the Advisory Council's comments on the effectiveness of the community access program and the achievement of the program's goals.
