

Gas and Food Prices Got you Down? Benefits QuickLINK Screenings are coming to the Miller Senior Center!

- Benefits QuickLINK can help you find programs that can pay for groceries, Medicare premiums, prescription drugs, heating, taxes and more. Information on programs that help grandparents raising grandchildren is also available. Documentation is not required. The screenings, utilizing AARP's Benefits QuickLINK tool provide information and applications for programs that can provide income support for seniors.
- The screenings are scheduled for every second Tuesday of the month from 10am to noon, starting Tuesday, July 12, 2011.
- To assist in the process, the following information should be brought to the screening:
 - Monthly income (pension, social security, dividends and interest)
 - Monthly expenses (heating, gas, electricity, water, telephone, rent or mortgage payments, medical expenses not covered by insurance)
 - Asset information (savings, estimated value of home and car, life insurance benefits)
 - A list of all current prescriptions

Benefits QuickLINK is private, free, and confidential! Please contact Suzanne Burbage to schedule an appointment for a screening.
