Super Duper Science Sampler Grade 1-5 (June 24,25,26 from 9 am-12 pm)

Location: Hamden High School

For the camper who wants to try it all this Mad Lab variety camp is for you! This camp has Mad Science's coolest bits and pieces that will make you go scientifically bonkers! It's one of our new favorites with fast paced experiments one after another with topics in Laser Light, Electricity, Power and Energy, Che-mystery, and Magnets! Experience FIZZ"-ical Phenomena by stirring up some crazy concoctions, create cool gases, electroplate coins, and make crystals. Dive into electricity by experimenting with Squishy Circuits and mini Van De Graff sticks. Learn about power and energy using robots and solar powered devices. Use lasers to get through a maze. Learn the magic behind levitation with magnets. In this camp, you will certainly become a certified "Mad" Scientist! It's a camp so great it's Super-Duper!

Reactions In Action Grade 1-5 (Aug 10-14 from 9 am-12pm)

Shake up a flask of fun in the lab as a Junior Chemist! Try your hands as a real Mad Scientist in this whirlwind camp packed solid with cool reactions. Explore bubbling potions, slimy polymers, color-changing liquids, dry ice bubbles, and solids that disappear in an instant! Start out the week learning about laboratory equipment at your personal lab bench. Then, slide down the PH scale and spend a day finding out how different chemicals react when mixed together. Build and break molecules and grow crystals. Ooze into a gooey day of making crazy concoctions like glow putty and guar gum brain goo! Round out this radical week manipulating matter in all of its three states and freeze your breath with dry ice! Everyday take home your very own Mad Science lab gear. Come take a walk on the wild side with us as we explore how radical chemistry can be!
