

## DO's AND DO NOT's

- Please do not put out items that are suitable for donation to local charities such as Goodwill or the Salvation Army. Donation of some items may be tax deductible.
- Do not place items on a neighbor's bulk trash pile. This is illegal dumping and could be prosecuted as such.
- Do not allow bulk trash items to block any portion of the sidewalk or street. Hamden Police can issue a ticket for this violation
- Do not put out cardboard boxes, either empty or containing other items. Cardboard must be recycled in your blue recycling cart.
- Use clear plastic bags to contain smaller, loose items for bulk pick-up.
- Do not put out only acceptable items. If unacceptable items are placed at the curb either independently or mixed with acceptable items, the entire pile may be tagged with an orange violation sticker and the entire collection suspended until the unacceptable items are removed. A pile may be tagged if it contains any material that cannot be identified and may be considered hazardous or chemical waste.

# TOWN OF HAMDEN BULK-WASTE DISPOSAL

Residents are allowed to put out bulk trash during the months of April and October of each year. The bulk trash pick-up policy was modified in an attempt to improve services to Town residents resulting in, if properly followed, a cleaner appearance for our Town. Your cooperation in following these guidelines will benefit us all with a cleaner Hamden!

## GENERAL INFORMATION

Residents may put bulk trash in front of their homes during the entire month of April (April 1st-30th) and during the entire month of October (October 1st-31st)

**No phone calls or appointments are necessary.**

This new policy will leave the Town of Hamden looking cleaner the remaining ten months of the year. It also allows for people to take each other's items as their treasures. All that great recycling that occurs, results in a reduction of the amount of bulk trash collected thereby reducing pollution, conserving energy and saving natural resources.

This service is not provided for wholesale cleanout of houses or dwelling units.

Property owners must rent a dumpster whenever a permit for work is taken.

Landlords are responsible for disposal of their tenants Bulk Trash.
