CONSTRUCTION BEGINS ON BUS DROP OFF AREA **AT SHEPHERD GLEN SCHOOL**

HAMDEN – Mayor Curt Balzano Leng and the Town of Hamden elected and appointed officials are very pleased to announce the construction of an all new Bus Drop-Off Area, which is now underway at Shepherd Glen Elementary School. Once completed, buses will be able to use the newly constructed area exclusively; separating the bus and the parent drop-off traffic. These improvements, along with other traffic calming measures installed earlier in the year, are implemented with the goal of increased student and pedestrian safety at Shepard Glen.

Discussing the project, Mayor Curt Leng said “The Town worked closely with the Superintendent, Shepherd Glen’s Principal, Board of Education Member Adam Sendroff, and the School PTA on the development and implementation of this project. It was a great team effort to enhance student safety and slow traffic on what has been a problematic road.” Parents and guardians will receive more information about the usage of the Bus Drop-Off Area as the school year progresses and the project nears completion.

Additional press releases and photos will become available as the project nears completion. Any questions regarding this project should be directed to the Hamden Engineering Department by calling (203) 287-7044.

For further information, please contact Information & Research Officer, Patrick J. Donnelly at
