

Important Notice from United Illuminating:

*If you have overhead service to your home you should be aware that UI is responsible for the wires from the street to your house. If this wire is down or the meter is damaged, please call UI immediately at **1-800-7CALLUI** to report this for repair.*

The customer is responsible for the wires that connect from the house to the meter and the box containing the meter. If these appear damaged in any way you'll need to call your own licensed electrician to repair damage before UI can reconnect service

*For more information, please contact United Illuminating at **1-800-7CALLUI** or visit www.uinet.com.*
