RE: Surveying and Wetland Delineation for High Meadows Property Hamden, CT - RFP #20-07
MCA: 2019-324

Martinez Couch & Associates LLC (MCA) is pleased to present this proposal to provide a boundary and topographic survey and wetland delineation for the High Meadows Property located at 825 Hartford Turnpike in Hamden, CT.

SCOPE OF WORK:

MCA will perform a Class A-2 boundary survey of the street & property lines for the property described herein. All work will be based on NAD83 for horizontal control and NAVD 1988 Datum for vertical control. Survey and mapping will be prepared at an appropriate scale and will include a cover index sheet. The survey will include all necessary ground control, both horizontal and vertical.

The survey will also include all existing significant topographical features and improvements within the property to include but not be limited to:

- Recover and locate property line and street line monuments, if available. Locate street lines and determine property owners and property lines.
- Ground surface contours at 1' intervals extending to the limits of pavement and landscaped areas. Ground surface contours at 2' intervals to other limits of the property and 25' beyond property lines, as accessible.
- Edge of pavement and curbing, type of curb, sidewalks and ramps, hydrants, guide railing, driveways, walls, fences, mailboxes, walkways and steps, signs, parking striping and other pavement markings, landscaping, buildings, and street furniture.
- Significant trees greater than 8" (dbh) within the formally landscaped areas. Beyond the existing tree lines where dense vegetation exists, provide significant trees greater than 18" (dbh) within fifty (50') feet, and greater than 30" beyond fifty (50') feet.
- Survey will locate drainage pipes, catch basins with top elevation and culverts. Approximate pipe sizes and invert elevations of pipes at catch basins and manholes will be shown to the extent that they are visible and accessible. All drainage outlets within the project limits will be located.
- Survey will locate utility poles, gate valves, manholes and other such evidence of utilities visible and accessible at the time of the field survey. Utilize utility field marking services as much as practical.
- Survey will locate soil borings undertaken as part of any geotechnical investigation, if conducted within the time frame of the survey.
- Locate the watercourse as it crosses the property. Provide width dimensions and spot elevations of the channel at significant points.

- After wetlands have been flagged, the soils scientist's sketches will be used to assist the surveyor in locating the flags in the field. The flagged location will meet "Class B" horizontal accuracy at minimum, and sub-loops for control will meet "Class A-2" horizontal accuracy. Mapping will be prepared to show the surveyed delineation lines.

Wetland Delineation

MCA will engage a soil scientist to delineate wetlands within the property limits. Delineated wetlands will and incorporated into the survey file. Delineation will identify the type of wetlands and be summarized in a wetlands report and submitted to the Town.

Deliverables

The deliverables are anticipated to be: field book record copies, data files (rectified field data and AutoCAD compatible point files), paper maps, mylar maps, soil scientist reports and other reports of findings (such as but not limited to map analysis or tree and street line determinations), or AutoCAD electronic map files to be used as design base maps.

FEES:

Please see attached for lump sum price to complete the scope as described above.

We look forward to working with you on this project. If you have any questions, please feel free to contact me at 860-436-4364 ext. 632 or via email at armartinez@martinezcouch.com.

Sincerely,

A Rafael Martinez, LLS
Member Martinez Couch & Associates, LLC

COMPLETE AND RETURN

RFP #20-07

You are required to furnish the following information to the Town of Hamden:

Name and address of Company (Print or type) Martinez Couch & Associates, LLC
1084 Cromwell Avenue Suite A-2
Rocky Hill, CT 06067

Lump sum price for equipment, material, and labor: \$ \$49,800

\$ Forty-nine thousand, eight hundred dollars and zero cents.
WRITTEN AMOUNT

Name and Title of Agent of Company (Print or type) A Rafael Martinez,, LLS - Managing Member
